myVidya AI

myVidya AI for Parents

Stay close to your child’s learning, every week

One family phone, a Sunday report for each child, and privacy you control

myvidyaai.com

One phone for the whole family

WHAT IT IS FOR

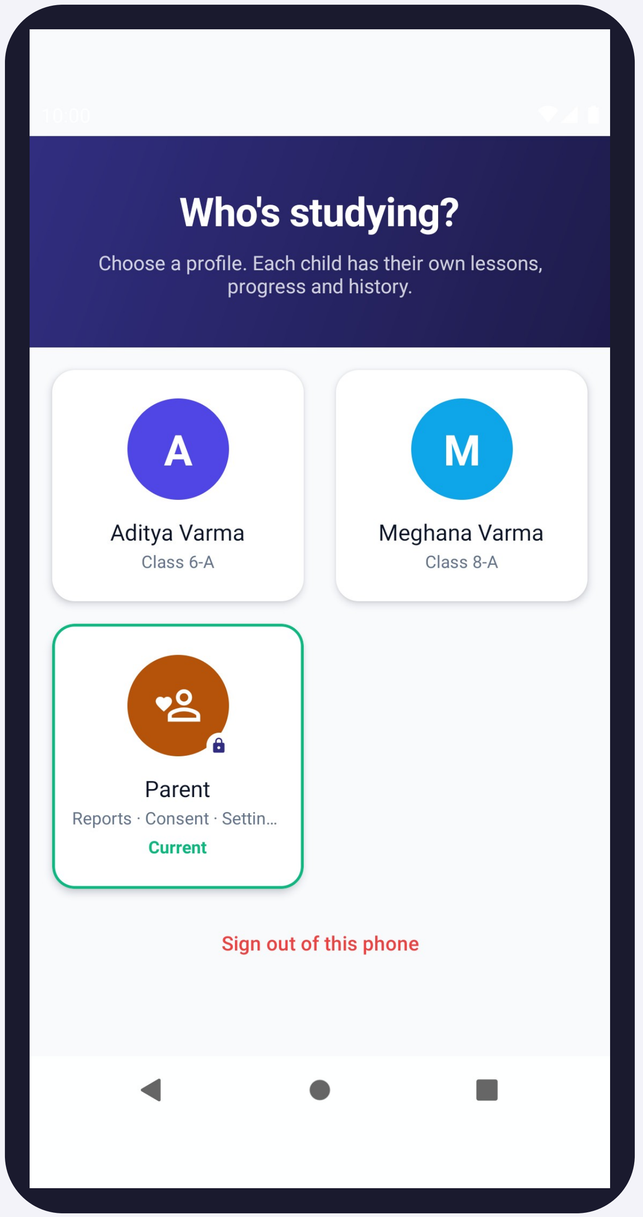

You sign in once with the mobile number your school has on record, and every child linked to it appears on one screen.

HOW IT HELPS YOUR CHILD LEARN

Each child keeps their own lessons, progress and history, so siblings can share one phone without mixing up their work.

HOW IT WORKS

1. Enter your school code and choose “Student or parent”.
2. Confirm with the one-time code sent to your mobile.
3. On “Who’s studying?”, tap your child’s name, or Parent.

Your parent area, all in one place

WHAT IT IS FOR

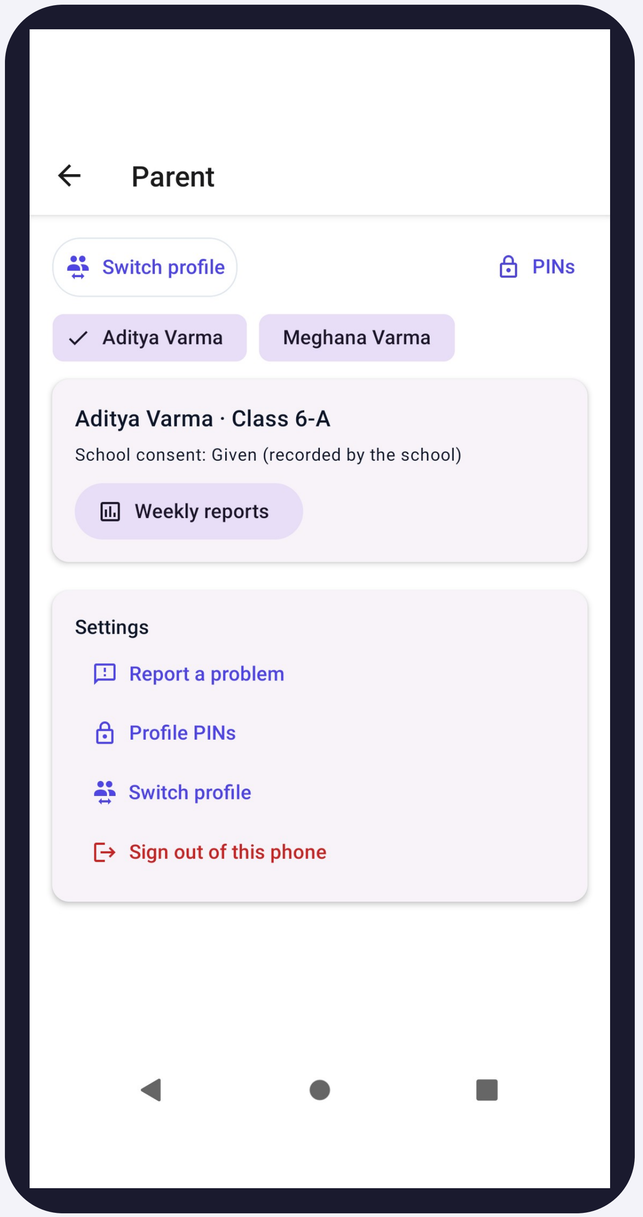

A calm view of each of your children: their class, the school's consent record, weekly reports and your settings.

HOW IT HELPS YOUR CHILD LEARN

You can see that your consent is recorded, then open each week's report to know what to praise and what to practise together.

HOW IT WORKS

1. On "Who's studying?", tap the Parent tile.
2. Choose a child to see their class and consent status.
3. Open Weekly reports, or manage PINs and settings.

The Sunday weekly report

WHAT IT IS FOR

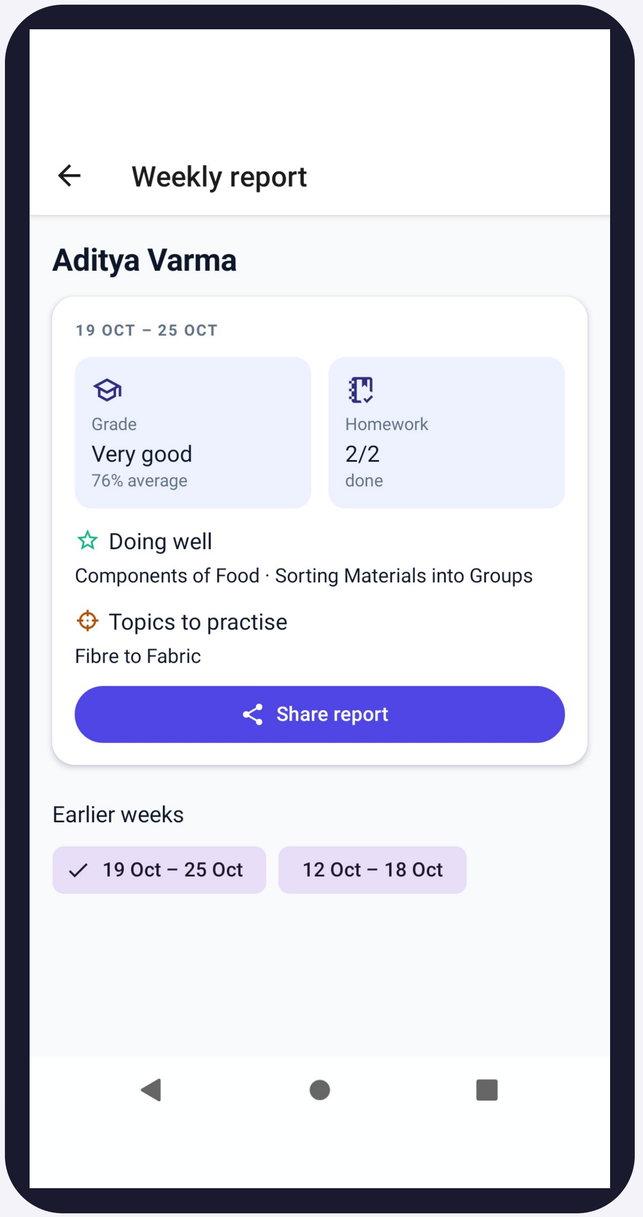

Every Sunday evening, a short report is ready for each child: grade, homework done, what is going well and what to practise.

HOW IT HELPS YOUR CHILD LEARN

You know exactly what to praise and what to practise together, so a few minutes at home build on the week at school.

HOW IT WORKS

1. A free notification tells you whose report is ready.
2. Open Weekly reports in your parent area.
3. Share the report, then talk it through with your child.

Keep each profile private

WHAT IT IS FOR

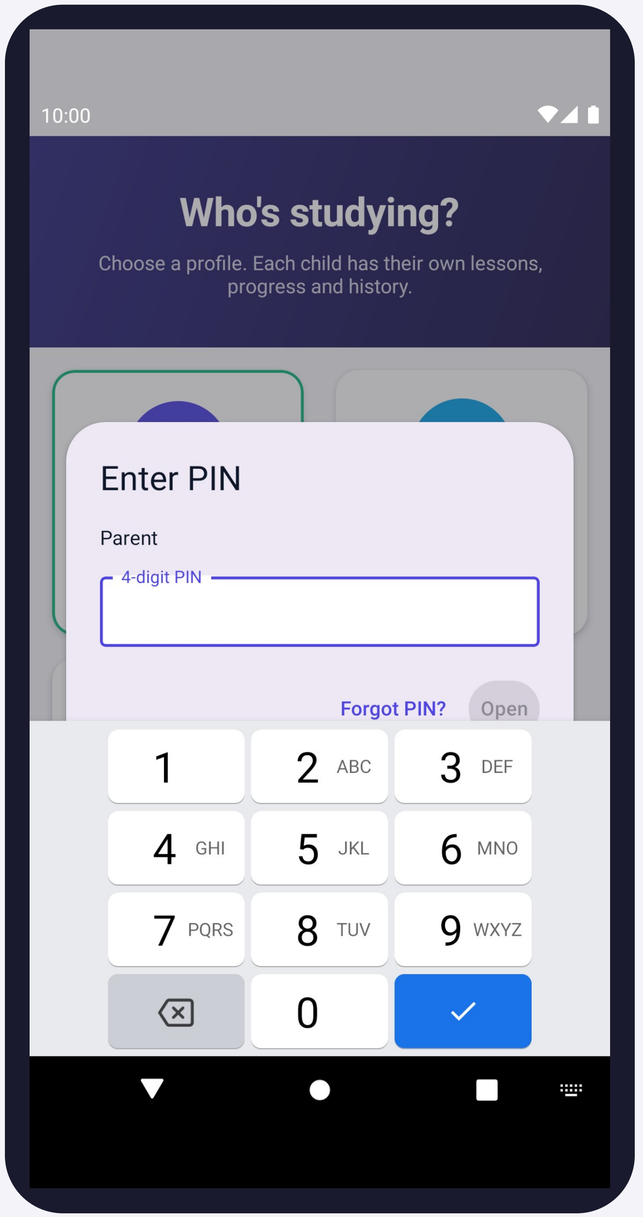

An optional 4-digit PIN for each child and for Parent. If one is forgotten, “Forgot PIN?” resets it with your mobile.

HOW IT HELPS YOUR CHILD LEARN

Each child opens only their own lessons, so their progress stays their own and the parent area stays with you.

HOW IT WORKS

1. In your parent area, open Profile PINs.
2. Set a PIN for a child, or for Parent.
3. The PIN is asked whenever that profile is opened.

What your child does in Vidya

WHAT IT IS FOR

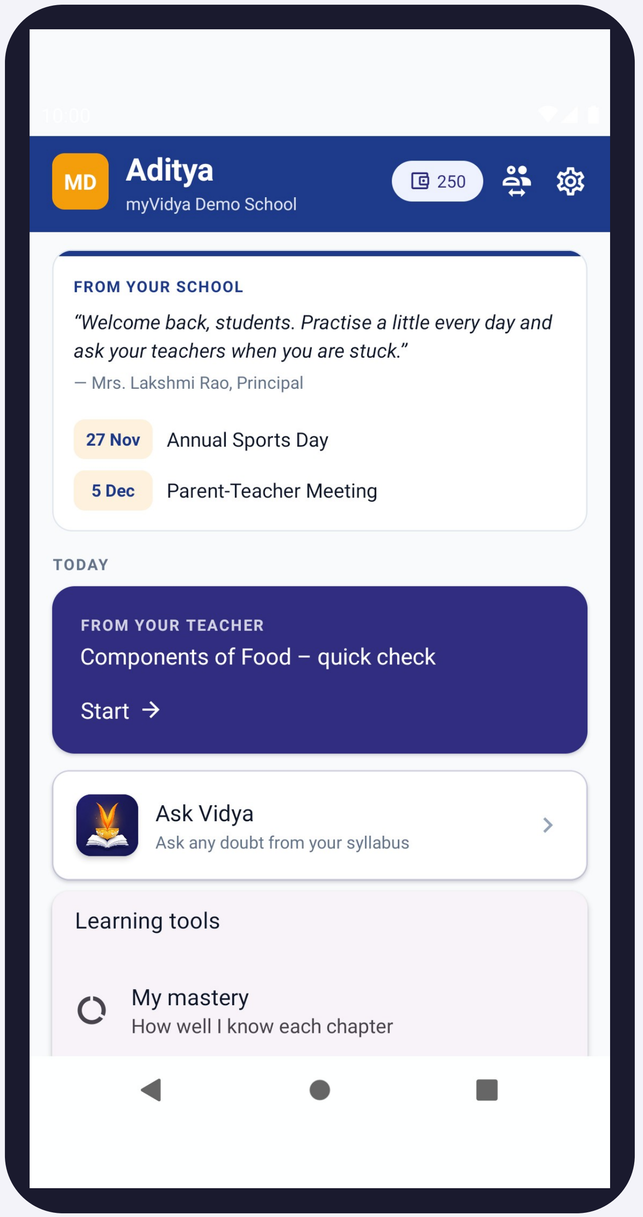

On their own profile, your child sees school notices, the day's task from their teacher, and Ask Vidya for doubts.

HOW IT HELPS YOUR CHILD LEARN

Answers come only from their school's own syllabus, and My mastery shows how well each chapter is understood.

HOW IT WORKS

1. Your child taps their name on "Who's studying?".
2. They start today's task, such as a quick check.
3. They ask Vidya any doubt, then track progress in My mastery.

myVidya AI

Safe and private

Your family’s data, handled with care

Your consent comes first

Until the school records your signed consent form, AI features stay off for your child.

Consent and data handling built to comply with India’s DPDP Act

No ads and no ranks, so children learn without pressure

AI stays on school books, and teachers review AI work before it counts

YOUR CONTROLS

Delete your account

In the app, open Settings, choose Delete my account and confirm. Privacy and terms pages are on myvidyaai.com.

Vidya Coins, explained for parents

WHAT IT IS FOR

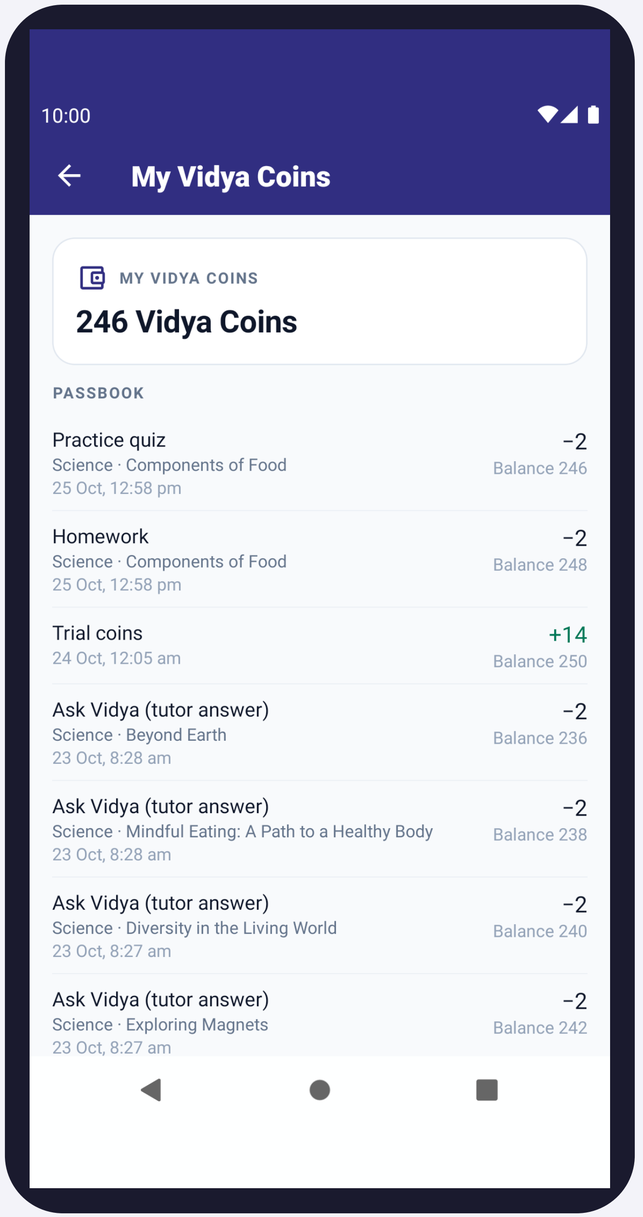

During the school trial, your child receives free Vidya Coins every day to use on AI activities.

HOW IT HELPS YOUR CHILD LEARN

Each activity shows its coin cost before it starts, so your child learns to plan their practice with care.

HOW IT WORKS

1. Free trial coins arrive in your child’s wallet every day.
2. The coin cost shows before each AI activity is used.
3. No purchases in this version; any optional parent top-ups will be announced in advance.

What you gain

Simple, honest support at home

Stay involved in your child’s learning, with clear information every week and nothing to pay during the trial.

Know your child’s week

A Sunday report shows homework done, what is going well and what to practise.

Help at home in English or Telugu

Vidya works in English and Telugu, so the whole family can follow along.

Free during the school trial

Free coins arrive every day, and there is nothing to buy in this version.

myVidya AI

Full transparency for families
