myVidya AI

myVidya AI for Students

Daily learning, guided by your school’s own textbook

Practice, help and progress for every student, in English and Telugu

myvidyaai.com

Sign in safely, with a profile for each child

PURPOSE

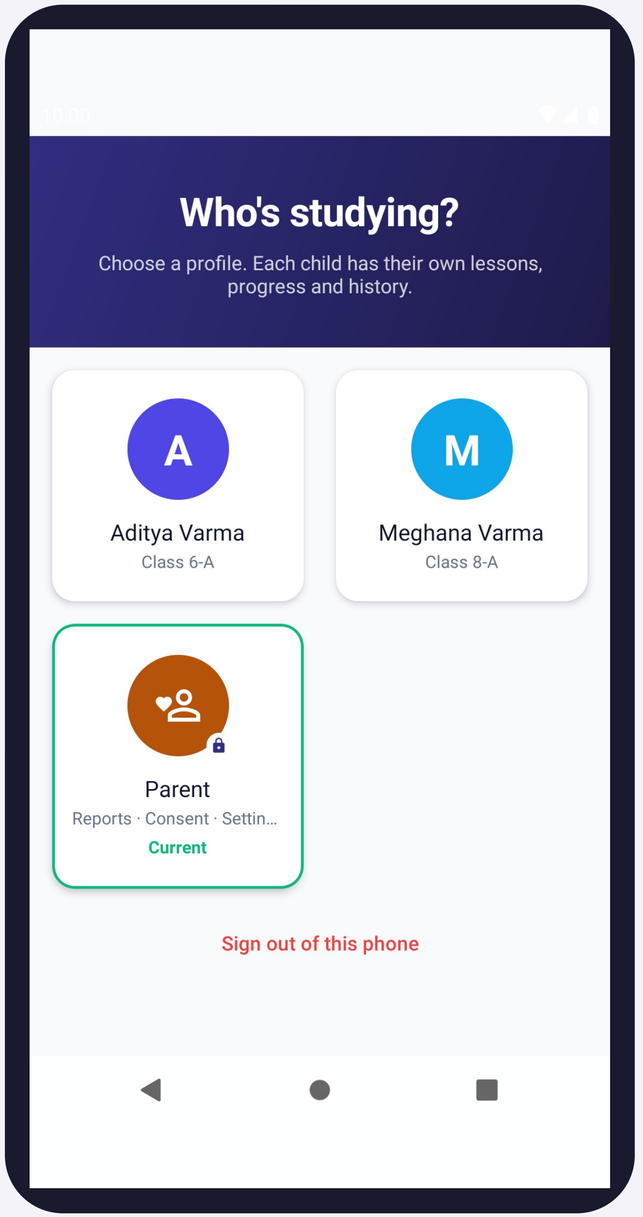

Gives each child a private profile on the family phone, behind the parent's verified sign-in.

HOW IT HELPS LEARNING

Every child keeps their own lessons, progress and history, so each child's learning stays their own.

HOW IT WORKS

1. Find your school and choose Student or parent.
2. Sign in with the parent's mobile number and OTP.
3. Tap your name on "Who's studying?".

A calm home that shows what to do today

PURPOSE

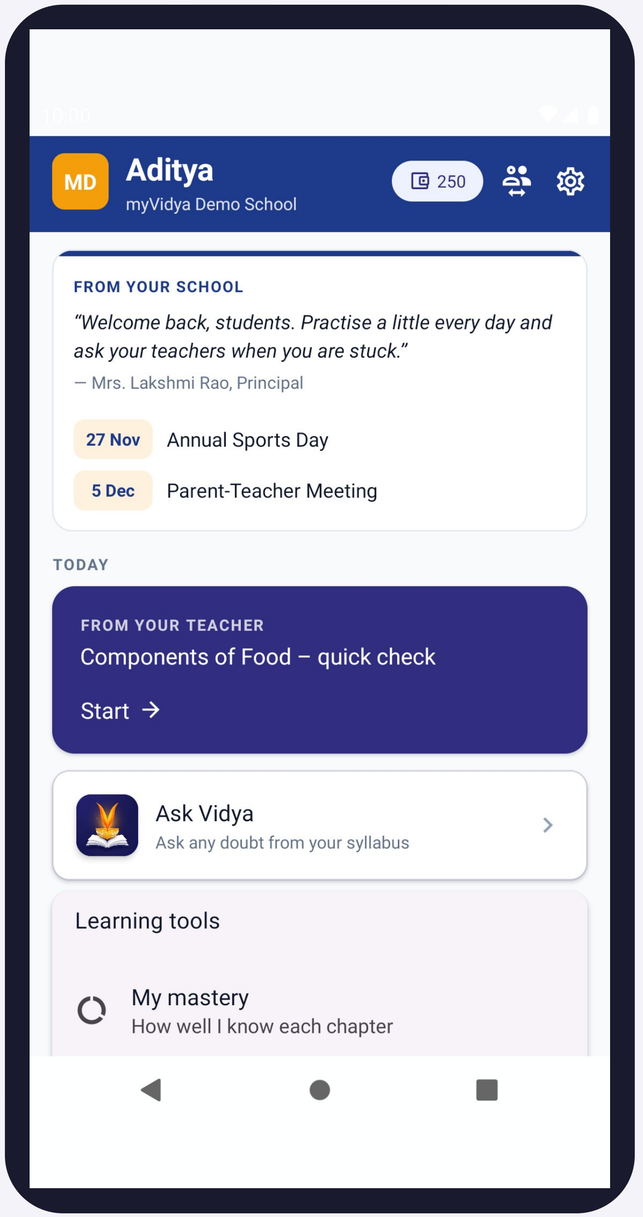

One calm starting point for every study session.

HOW IT HELPS LEARNING

Today’s task, school news and Ask Vidya sit on one screen, with no streaks, ranks or leaderboards.

HOW IT WORKS

1. Open the app and see the Today card.
2. Check notices and events from your school.
3. Tap the task to start learning.

Learn from your own school textbook

PURPOSE

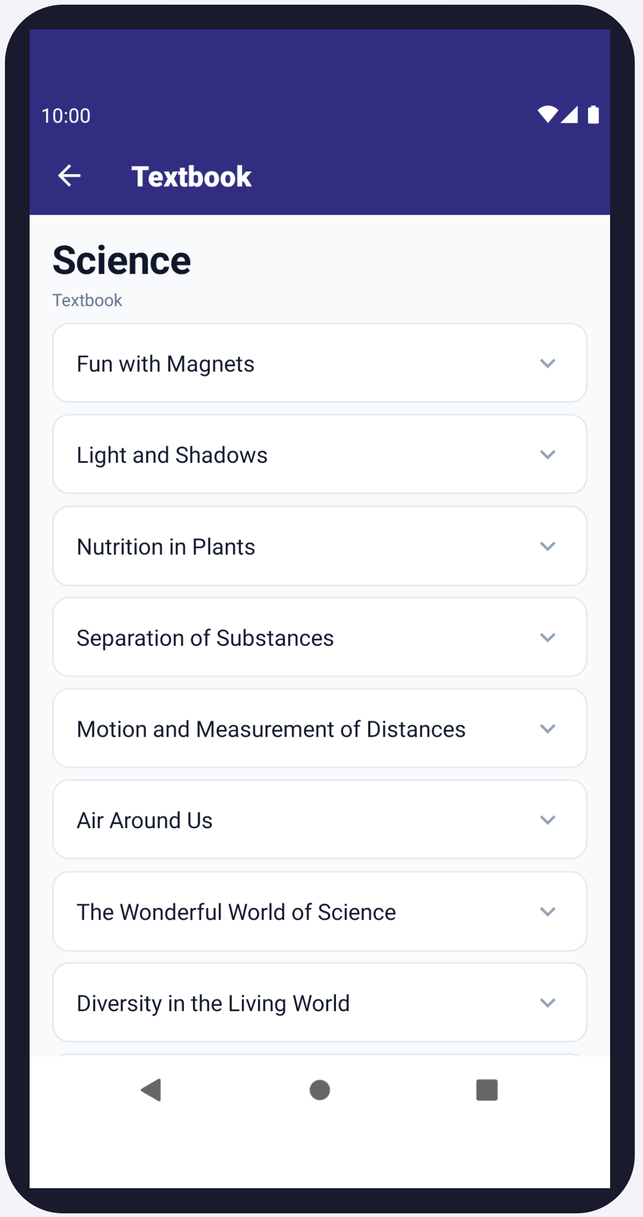

Every chapter comes from the school's approved syllabus and textbook.

HOW IT HELPS LEARNING

Learning follows the school's own book and order, with Learn, Practice and Ask on every chapter.

HOW IT WORKS

1. Tap your subject.
2. Open a chapter.
3. Choose Learn, Practice or Ask.

Ask Vidya: a patient tutor from your own book

PURPOSE

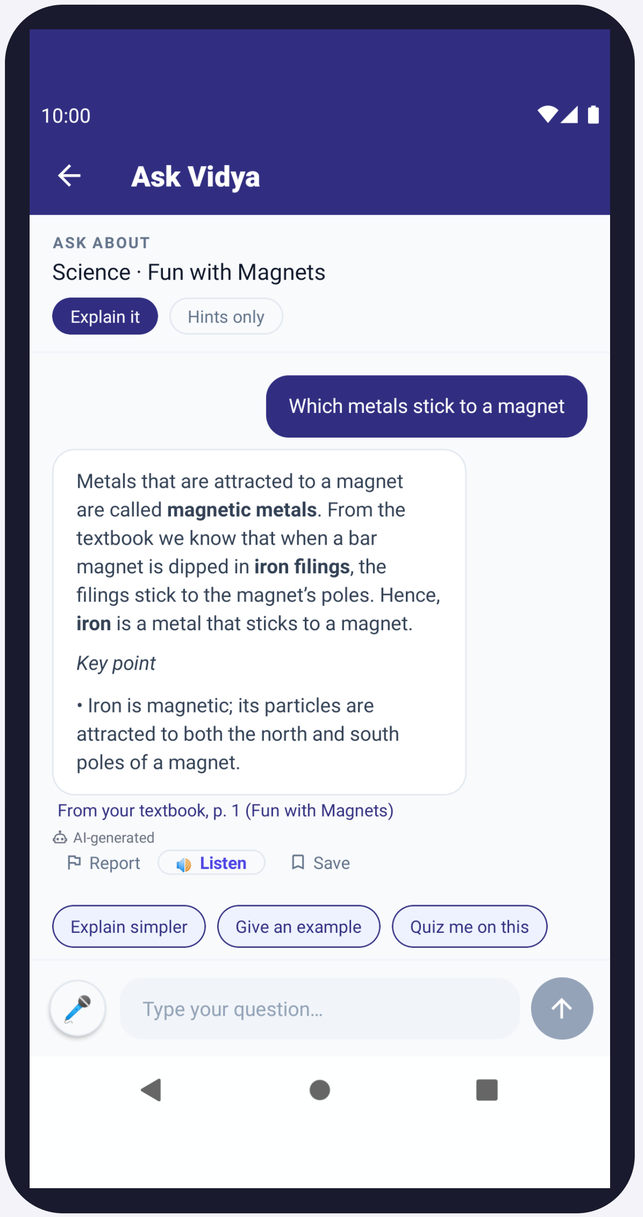

A chapter-based AI tutor that answers doubts from the school's textbook.

HOW IT HELPS LEARNING

Help at home, in English or Telugu. Hints-only mode makes children think for themselves.

HOW IT WORKS

1. Choose the subject and chapter.
2. Type or speak your question.
3. Read the answer, or ask for hints only.

Practice and homework that teach

PURPOSE

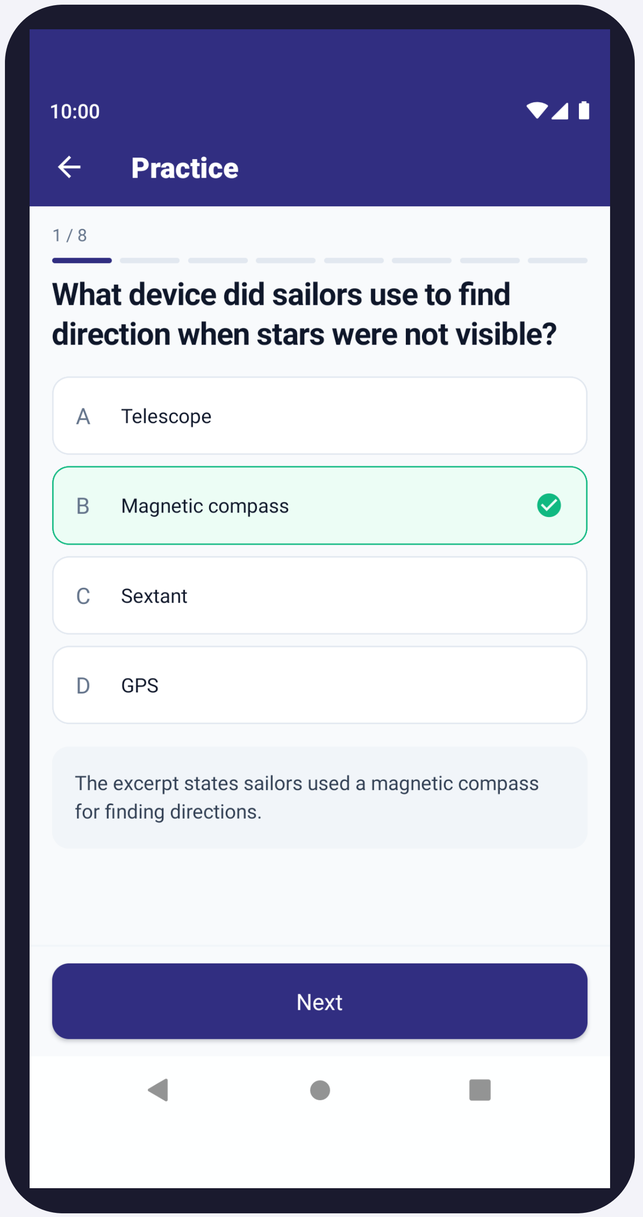

Short chapter quizzes and teacher-set homework, with calm, instant feedback.

HOW IT HELPS LEARNING

Each answer comes with a brief explanation, and reviewing mistakes closes the loop on homework.

HOW IT WORKS

1. Start Practice or open Homework.
2. Answer and submit.
3. Review wrong answers when your teacher releases them.

Know what you know, and what to revise

PURPOSE

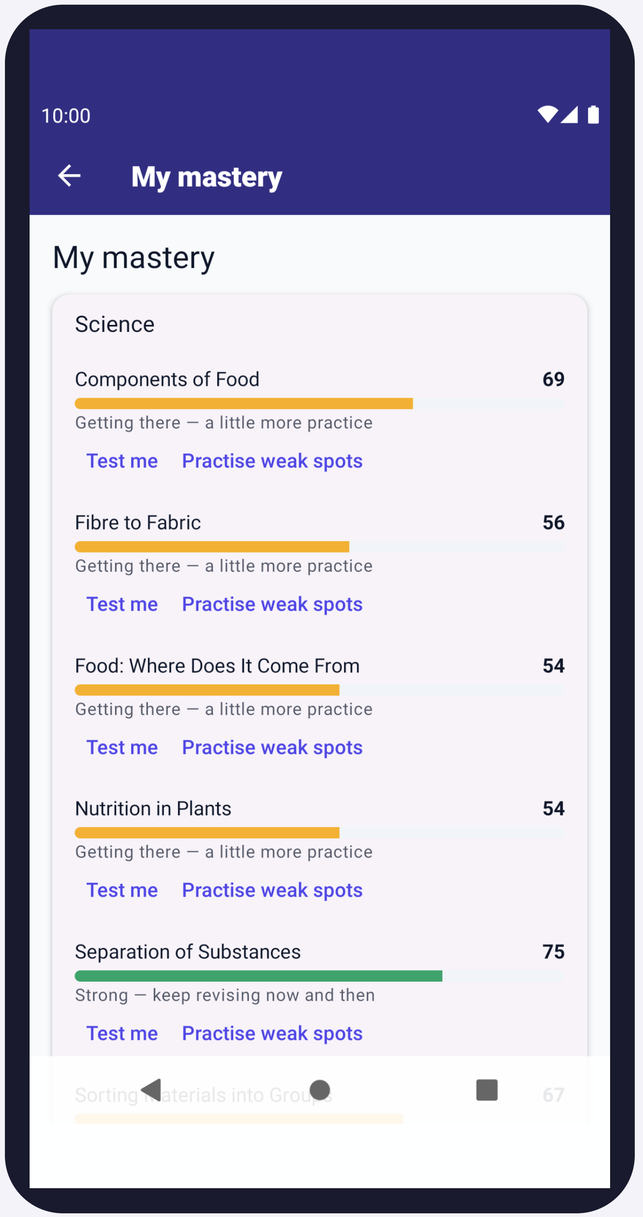

Shows how well each chapter is known, on a 0–100 bar, with no ranks.

HOW IT HELPS LEARNING

Adaptive tests practise at the right level, and exam readiness names the chapters to revise first.

HOW IT WORKS

1. Open My mastery.
2. Pick a weak chapter.
3. Take an adaptive test.

Remember and understand, not just memorise

PURPOSE

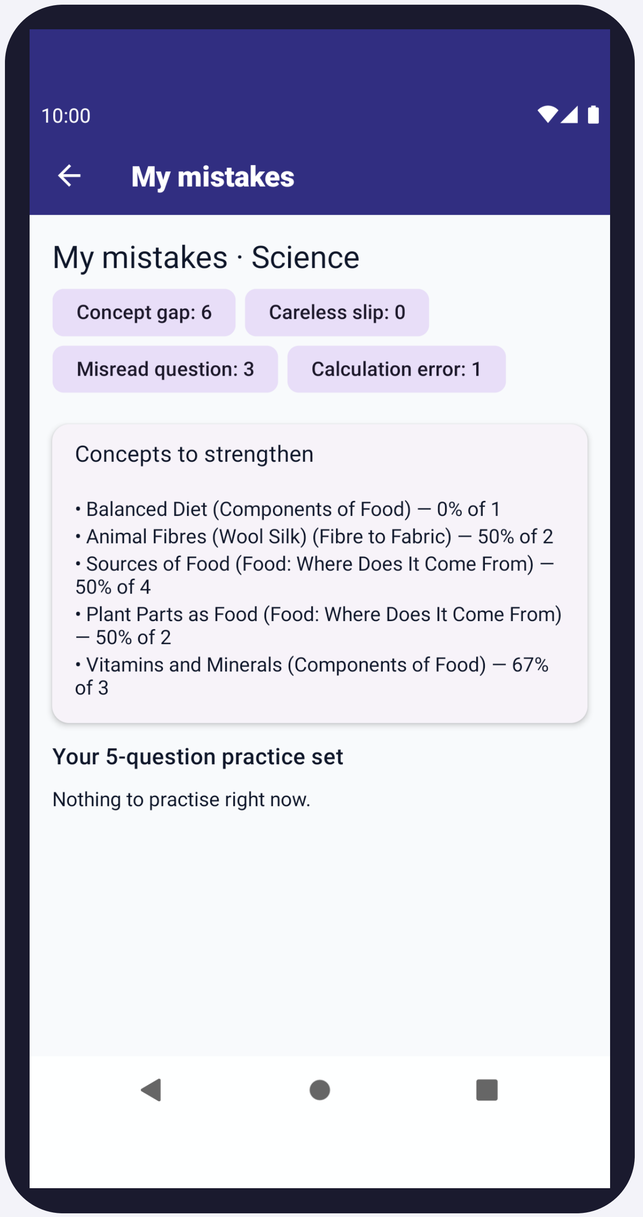

Tools that check real understanding and bring key ideas back before they fade.

HOW IT HELPS LEARNING

Spaced memory checks help children keep what they learn. Explaining in their own words and fixing the cause of mistakes builds lasting understanding.

HOW IT WORKS

1. Answer memory checks when they are due.
2. Explain a concept in your own words.
3. Fix mistakes with a 5-question practice set.

Works offline, and shares progress with parents

PURPOSE

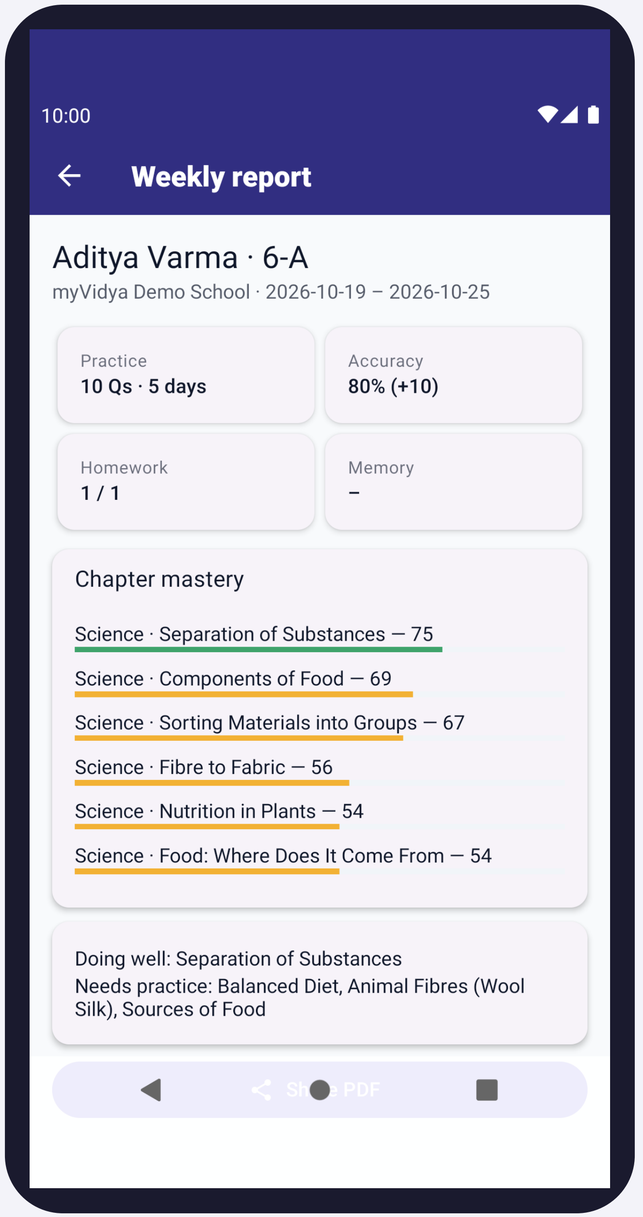

Learning continues without internet, and progress reaches home.

HOW IT HELPS LEARNING

Offline homework suits children with poor connectivity, and the weekly report lets child and parent see progress together.

HOW IT WORKS

1. Download homework on Wi-Fi.
2. Answer offline; it uploads when back online.
3. Share the weekly report PDF with parents.

myVidya AI

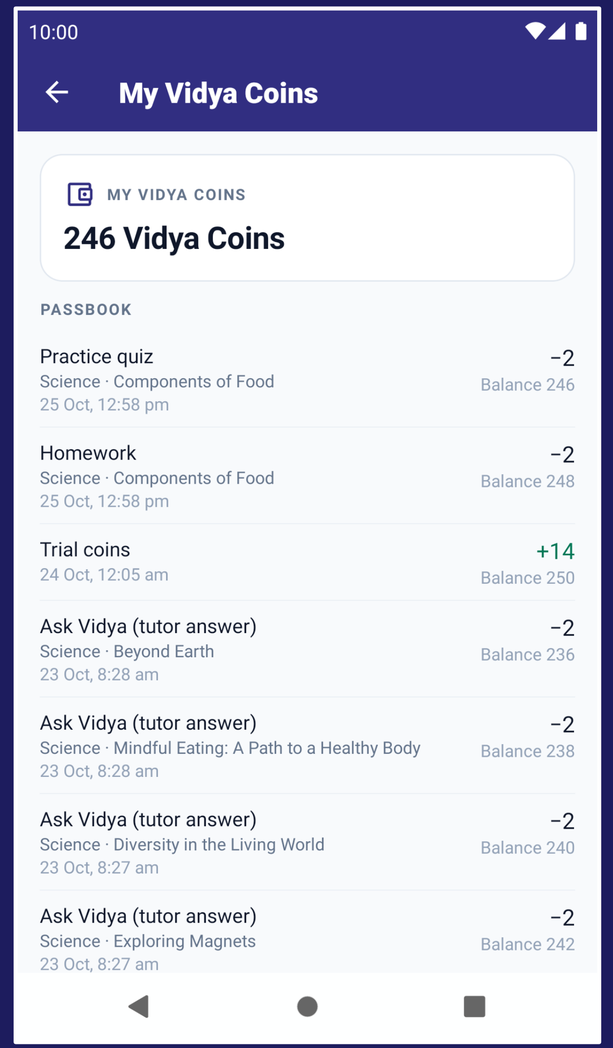

Vidya Coins

How coins work in the trial

Fair and transparent

Some AI features use coins: for example, an Ask Vidya answer uses 2 coins. Payment is not live yet, so there are no purchases in this version. Optional parent top-ups may come later and will be announced in advance.

- Free trial coins every day
- AI tutor actions show their coin cost first
- No purchases in this version

Built on the school’s own syllabus, in English and Telugu, with teachers in control.

What students gain

Daily learning from their own book

Daily practice from their own textbook

Gaps found and fixed early

Calm: no streaks or rankings

Full transparency

What’s live, and what’s next

Live today	Not live yet
Sign-in, home, textbook, Ask Vidya, practice and homework	Parent top-ups and payment checkout: coming later, announced in advance
My mastery, memory checks, Explain it back, My mistakes, weekly report and offline homework	SMS and WhatsApp reminders
Free trial coins every day, with no purchases	Voice toggle in Settings: not built yet
Teachers review AI output. AI stays off until the parent’s consent is recorded.	My notebook: works only when the school turns it on
